

The voice of chemistry in Australia

The Royal Australian Chemical Institute

History

About the RACI

The RACI was founded in 1917 and originally called the Australian Chemical Institute. It received a Royal Charter in 1932 and a revision in the Royal Charter in 1953 allowed the name to be changed to Royal Australian Chemical Institute. The RACI became an incorporated association in 2000 representing the interests of the chemistry and those who work within it.

Governance

At the RACI we pride ourselves on good governance. The RACI is governed by a skilled Board made up of elected and appointed Directors. The Board is supported by a CEO who leads a team based across Australia.

Details about our governance can be accessed via the QR code.

Vision

The RACI exists to improve the quality of life through leadership in the field of chemical sciences.

Mission

The Mission of RACI is to be the Australian voice for chemical sciences and to advance the professional interests of its members.

- Analytical & Environmental
- Carbon Chemistry
- Chemical Education
- Electrochemistry
- Health, Safety & Environmental
- Industrial Chemistry
- Inorganic Chemistry
- Materials Chemistry
- Medicinal Chemistry & Chemical Biology
- Organic Chemistry

- Physical Chemistry
- Polymer Chemistry
- Radiochemistry
- Supramolecular Chemistry
- Green & Sustainable Chemistry (GASC) National Group

What We Do

Recognition

- Chartered Chemist Status
- Awards
- University Chemistry Program Accreditation

School Programs

- International Chemistry Quiz
- Crystal Growing Competition
- Titration Competition
- Titration Teacher Challenge
- Youth Lecture Series
- Chemistry and Art Competition

Career Development

- Mentoring Program
- Career Resources
- Volunteer Opportunities
- Chemistry Jobs Board

Advocacy

- We advocate on the things that matter to chemical science professionals

Publications

- We publish the Chemistry in Australia magazine
 - We co-own several other international Chemistry journals
- 

Events

- We run many events throughout the year on a variety of topics across Australia. We also bring international events to Australian shores.

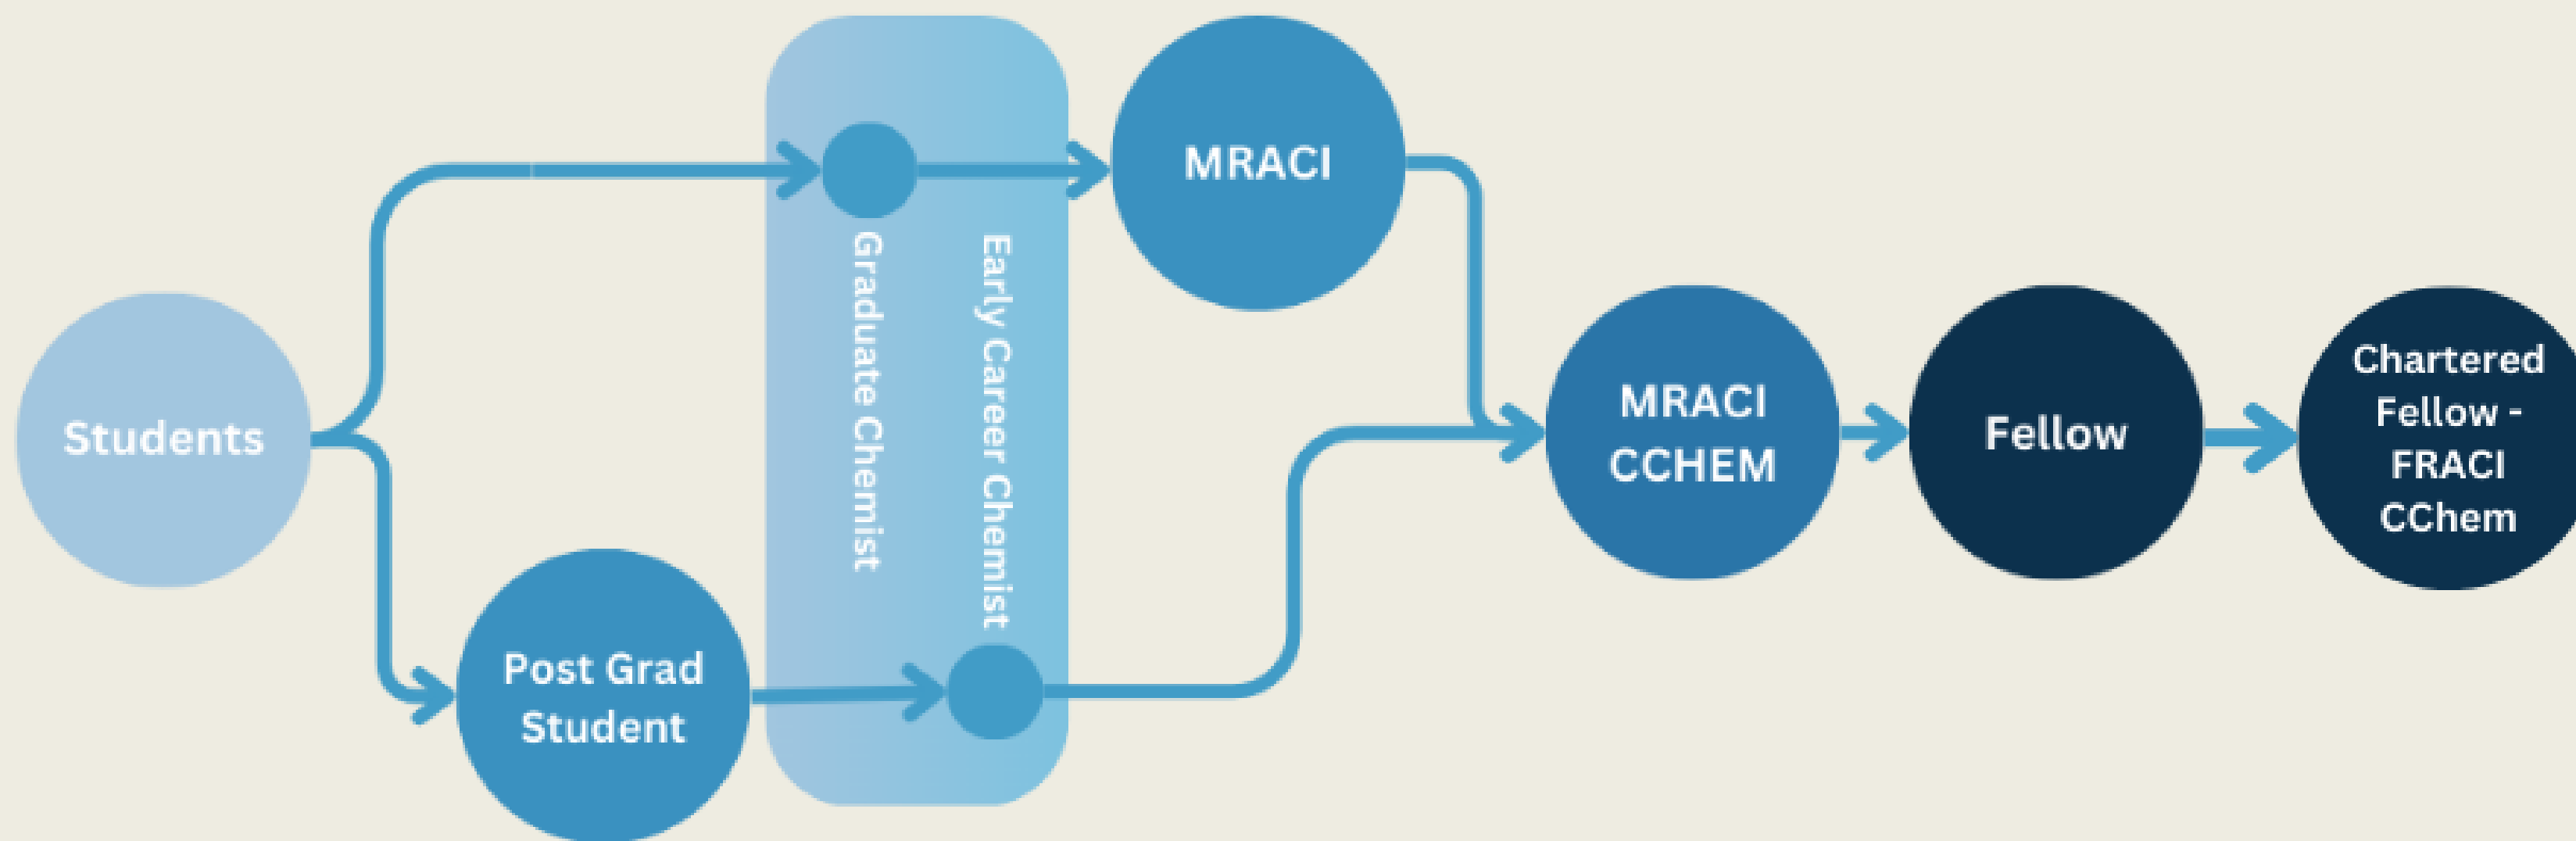

Awards

- We recognise achievements in chemistry through a range of awards.
- 

Membership

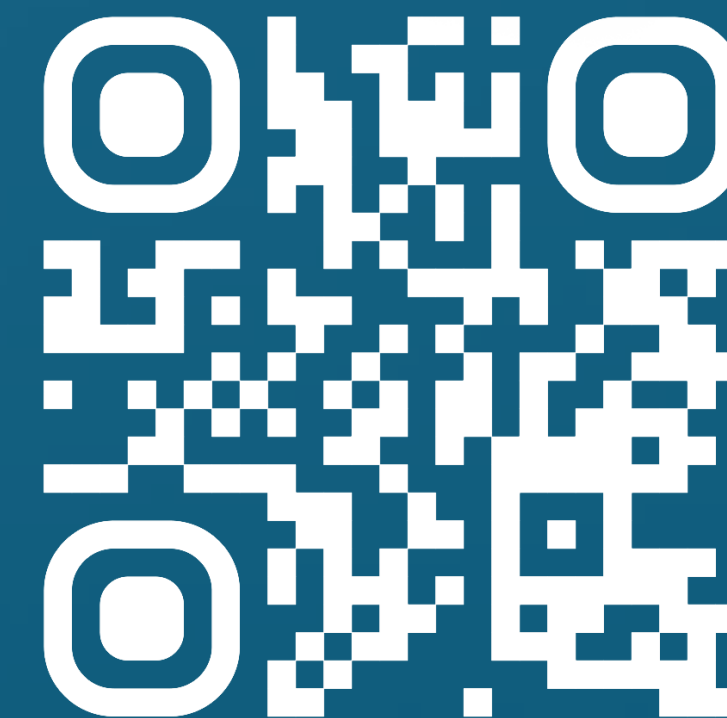

Membership

Membership

Benefits

- Expand your networks nationally and internationally
- Participate in learning opportunities that improve skills and knowledge
- Be recognised professionally through post-nominals
- Stay informed through with access to publications
- Have achievements recognised through awards
- Get discounted rates to RACI events
- Get the help you need through mentoring and career development opportunities
- Make a difference by joining a committee or other volunteering opportunities
- Get discounted entry to school programs
- Access advertising discounts
